3 June 1985

MEMORANDUM FOR: Deputy Director for Intelligence  
FROM: Director of Central Intelligence  
SUBJECT: Semantics Conference

25X1

1. I saw [ ] last week and mentioned to him about participating in the seminar on semantics pollution. Do we know about a similar seminar held in Washington a month ago? Leo Cherne gave me this material and said he had participated in it and it was a very good conference on the subject. I think we have a better program. Leo said he thought we could get a transcript of this conference which I would like to see.

2. Incidentally, I just opened up the conference on structural change. It looks very good and I attach a copy of my remarks.

  
William J. Casey
